

F2

Amend Claim 104 to read as follows:

--104. (Twice amended) A display as in Claim 98 wherein the black dichroic dye has a concentration of 0.1 - 10 wt % in the host liquid crystal.--

Enclosed is an appendix which indicates how the current versions of Claims 98 and 104 are produced from the previous versions of those claims. In the appendix, added material is underlined, and deleted material is in brackets.
